EXPERIENCE

Backend Developer

Vaypol • August 2024 - Present • Hybrid

- Maintained and improved an e-commerce platform built with Ruby on Rails and Spree, enhancing security, scalability, and performance.
- Refactored critical parts of the application, boosting performance and reducing load times.
- Optimized database schemas, ensuring efficient data handling and integrity.
- Improved API performance and integrated third-party logistics services like Correo Argentino and Andreani.
- Led the enhancement of a digital signage system for store branches, improving code maintainability and adding new features such as asynchronous image fetching. Integrated it seamlessly with the existing back office.
- Managed AWS services (CloudWatch, Lambda, VPS, EC2, SES) for application deployment and monitoring.

Front End Developer

No Country • May 2023 - December 2023 • Remote

- Built a business management application using React, TypeScript, and Tailwind CSS.
- Improved application performance through code optimization and refactoring.
- Implemented RESTful APIs and followed mobile-first design principles, ensuring a seamless experience across devices.
- Translated complex UI/UX designs into functional, user-friendly components.
- Utilized Redux for state management, enhancing application stability and data flow.

Full Stack Developer

Freelance • March 2022 - March 2023 • Remote

- Developed custom web applications with React, Ruby on Rails, and Node.js, integrating RESTful APIs for dynamic and scalable solutions.
- Designed and optimized database architectures using PostgreSQL and MySQL.
- Implemented authentication systems, enhancing security with JWT and OAuth.
- Developed and deployed e-commerce solutions, integrating payment gateways such as Payway and MercadoPago.

PROJECTS

GreenTrace

No Country • February 2023 - April 2023

- Developed a carbon footprint calculator web application using React and TypeScript.
- Incorporated RESTful APIs to fetch and update real-time environmental data.
- Applied responsive design principles to optimize user experience across devices.
- Created an interactive data visualization component using Chart.js.

Gamer's Vault

University Project • January 2023 - April 2023

- Architected a comprehensive e-commerce platform for games using React, Express, Node.js, and MySQL.
- Established secure user authentication using JWT and bcrypt.
- Integrated MercadoPago for payment processing.
- Designed advanced search and filter systems to enhance user experience.

Luna Boutique

University Project • January 2023 - April 2023

- Developed a vintage women's clothing e-commerce platform with Java Spring Boot for the backend and React for the frontend.
 - Implemented Spring Security for secure user authentication and authorization.
 - Designed and developed a RESTful API for managing products, orders, and user data.
 - Created a responsive and visually appealing user interface to enhance customer experience.
 - Collaborated with a team to ensure seamless integration between backend and frontend components.
-

EDUCATION

Software Engineering Technician

Manuel Belgrano Institute • Mendoza, Argentina • 2023 - Present

- Relevant coursework: Data Structures, Algorithms, Database Management, Databases

Industrial Engineering

National University of Tierra del Fuego • Tierra del Fuego, Argentina • 2020 - 2023

- Relevant coursework: Operations Research, Quality Control, Project Management, Systems Optimization
-

CERTIFICATIONS

- **Java and Object-Oriented Programming Essential Training** (Udemy)
 - **Git - GitHub Basics** (Udemy)
 - **Introduction to JavaScript Programming** (Udemy)
 - **Responsive Web Design** (freeCodeCamp)
 - **Amazon AWS al completo** (Udemy)
-

SKILLS

- **Programming Languages:** Ruby, Java, JavaScript, TypeScript, Python, Bash, Terraform
- **Front-end:** React, HTML, CSS, Tailwind CSS, Bootstrap
- **Back-end:** Ruby on Rails, Java Spring Boot, Node.js, Express, Amazon Web Services (AWS)
- **Databases:** MySQL, PostgreSQL
- **Methodologies & Tools:** Agile (Scrum, Kanban), Jira, Trello, ClickUp, Git
- **Languages:** English (Fluent), Spanish (Native)
